

null Ambassador Program

What is the null Ambassador Program?

- The null Ambassador Program is a new initiative under null 2.0 platform. By having this initiative we want to extend our null platform among those enthusiastic individuals who are currently pursuing their degrees under different establishments.
- The idea is to have our presence not only within working professionals but among colleges & universities. Come forward, join us and help null to understand better the culture, the environment of your college & university campus.
- So we, null 2.0 team would like to invite all of you, with having great learning desire, passionate about the cyber security domain & want to make a global presence across the global cyber security community, to come forward and be a part of this open security community, who is growing day by day.
- It is an opportunity for young cyber security enthusiasts to act as liaisons between null and their colleges/universities. Join null and be a brand ambassador by promoting, conducting & driving many cyber security events, meetups, seminars etc.
- Students from all undergraduate/graduate/post graduate programs irrespective of stream/branch but having a deep interest & driven by passion to grow into cyber security are most welcome.
- As an ambassador you will be responsible to plan, arrange, conduct, and host several informative events in your campus, such as seminars, talks etc. with respect to dynamic lists of cyber security topics.
- You will be the face, voice, and evangelist of null at your campus. Of course our core team will be there to guide you through out different phases for the event

Duration of the Program ?

- 1 year

Who can apply for the null Ambassador Program ?

- Students having strong leadership skills, passionate and immense love for cyber security, are most welcome to our extended family on their campus.
- Expressive, extrovert, having desire to grow individually with self awareness and possess great communication skills.
- Language is not a barrier but should have learning agility and knowledge of multiple languages is a plus.

How can we apply for the null Ambassador Program ?

- Self assess and match our selection criteria.
- Fill the google form by accessing the link given here

Criteria for successful completion of Ambassador program

1. You as an Ambassador have to organize at least 4 events in a year across the college campus or university.
2. Post event update the activity/event details to the responsible community manager. (Proofs of the event organized)
3. At the end of the program write your experience being a null Ambassador. All the things you have learned, any feedback/suggestion for the null, etc.

What are the role and responsibilities as the null Ambassador ?

- Introduce null The Open Security Community to the students, professors, any other individuals of college/university
- Organize informative talks, seminars, workshops and CTFs. You can source speakers or experts from the null community,
- Put the social elements to use by spreading the vision of null Community to the masses through platforms like Instagram, Facebook, LinkedIn and WhatsApp groups.
- Come up with innovative ideas on how null Community can associate with your college/universities.
- Spread the knowledge of how students at your college/universities can be safe and secure by providing them basic cyber security knowledge.

What points need to take care as the null Ambassador ?

- As null Community is a non-profit organization so you are not allowed to accept any type of funding or sponsorship in cash mode.
- Organize events according to the availability of college/university schedules.
- If you are collaborating with some organization for the event, you need to follow proper documentation and procedure.
- Take care that no false information or hatred is being spread under your leadership.
- No offensive communication for any other organization or community.
- Do not perform any expertise stunts without consulting prior people from null Community.

- No piracy.
- Refrain any political or religious content or comment.
- Only infosec content allowed.

What benefits would you earn as null Ambassador ?

- Certificate and letter of recommendation on successful completion of the program.
- This program will help you interact with experts for your polished career guidance and become a part of our city level meet-ups.
- Exposure to the global community of Information Security Experts and opportunities to interact with them.
